THE RELAIS SOLUTION

Made in France, the RELAIS module extends the capabilities of your Hub (2- and 6-door versions) to drive external equipment (lifts, home automation...).

Connected over a secure RS485 bus, it integrates natively with the HAXO ecosystem and enables advanced scenarios.

Specifications

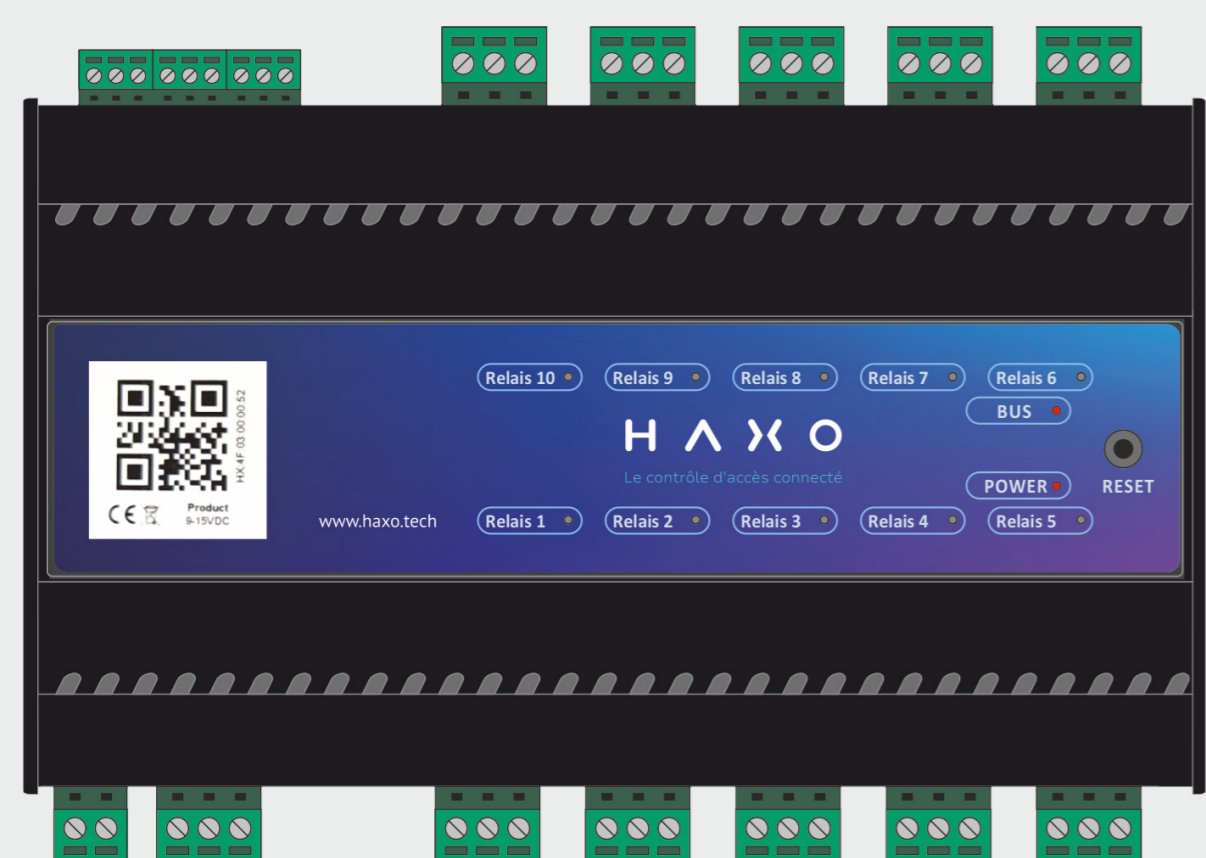

Power supply	9V – 15V
Inputs	6
Relays	11 (5A / 230V)
Encrypted communication with the hubs	AES 128 bits
Lifts	Yes
Scenarios	Yes
Door interlock management	Yes
Maximum number of RELAIS modules per Hub	16

Features & Innovations

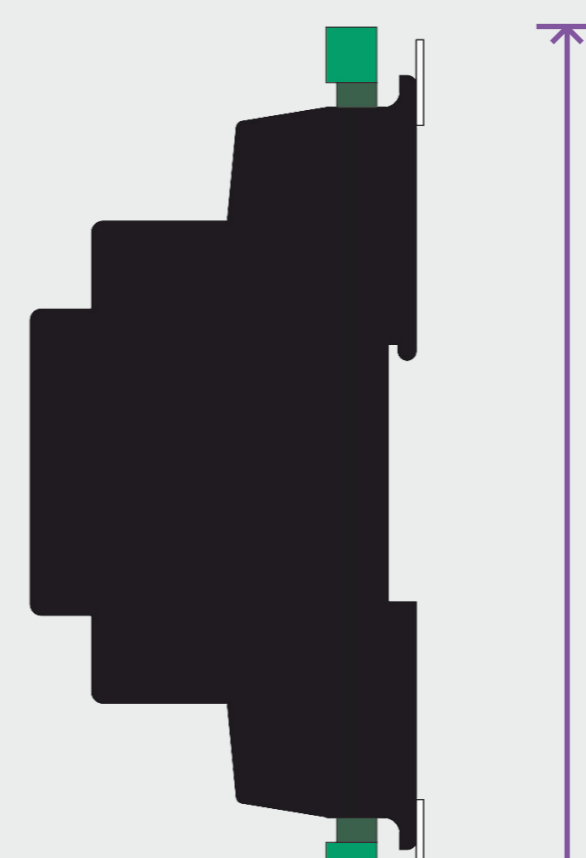

> Large-format plug-in connectors

> AES 128 encrypted RS485 bus

Device dimensions

178 mm

59 mm

130 mm
