THE LINK SOLUTION

LINK is an integration gateway designed and made in France. Powered by 12 V, it connects the HAXO solution to third-party systems: video, intrusion, intercom, home automation and mechatronic locks.

Each gateway opens one integration; Link Plus licences add a further integration or 20 additional devices.

Integrate your third-party systems, managed from the HAXO platform.

Devices included, extension via Link Plus licences.

Integration list continuously updated on www.haxo.tech

FEATURES AND INNOVATIONS

- › Intrusion: AJAX, ACRE Intrusion and Honeywell
- › Video: AJAX, HIKVISION and Dahua
- › Plate recognition (LPR) HIKVISION or Dahua
- › Mechatronic locks SimonsVoss, UZ and ASSA ABLOY
- › SIP intercoms
- › HAXO Fusion: integration of a third-party access control
- › Link Plus: one more integration or one more device pack
- › Evolving integrations: check www.haxo.tech
